Objective

Passionate Full Stack Developer with a background in Civil Engineering, seeking opportunities to leverage technical skills in HTML, CSS, JavaScript, ReactJS, NodeJS, Bootstrap, Tailwind CSS, and MongoDB. Eager to contribute to innovative projects and pursue a fulfilling career in IT.

Education

| | |
|---------------------------------------------------------|--------------|
| SSLC (Secondary School Leaving Certificate) | Score: 90.5% |
| Bharatiya Vidya Bhavan, Coimbatore | |
| HSC (Higher Secondary School) | Score: 77.7% |
| Bharatiya Vidya Bhavan, Coimbatore | |
| Bachelor of Engineering in Civil | 2017 - 2021 |
| KPR Institute of Engineering and Technology, Coimbatore | CGPA: 7.57 |

Course

| | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| Full Stack Development | Sep 2023 - Mar 2024 |
| Skill Safari Institute | |
| This course provided comprehensive training in full-stack web development, covering HTML, CSS, JavaScript, ReactJS, NodeJS, Bootstrap, Tailwind CSS, and MongoDB. | |

Projects (click on the project title for links)

- **Anime Database:** Developed a ReactJS-based application that serves as a comprehensive anime database. Utilized ReactJS for the frontend to create an interactive user interface. Fetched and displayed anime data, showcasing proficiency in handling API integration and dynamic content rendering.
- **Weather Predictor using API:** Developed a weather predictor allowing users to input a location and retrieve current weather conditions.
- **Firebase Integrated E-commerce Website:** Created a fully functional e-commerce website with Firebase integration, providing CRUD operations for products.
- **Dark/Light Mode Calculator:** Implemented a calculator with the ability to toggle between dark and light modes.
- **Multistep Multistage Validation Form (Internship at Inforvio Technologies):** Led the development of a multistep, multistage validation form with photo upload functionality. Implemented conditions for onboarding acceptance (Feb 2024 - Present). Increased product efficiency by 20%.

Tech Skills

- **Languages:** JavaScript
- **Frameworks/Libraries:** ReactJS, NodeJS, Bootstrap, Tailwind CSS
- **Database:** MongoDB
- **Web Technologies:** HTML, CSS
- **Tools:** GitHub, VS Code

Experience

| | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|
| Quality Control Engineer | June 2021 - Nov 2023 |
| KNR Construction, Coimbatore | |
| Checked materials, Updated DPR, Conducted assessments, Corrective and preventive actions, maintaining engineering specifications. Increased product efficiency by 30 percent. | |

| | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| Intern | Feb 2024 - Present |
| Inforvio Technologies, Coimbatore | |
| Led the development of a multistep, multistage validation form with photo upload functionality. Implemented conditions for onboarding acceptance. Increased product efficiency by 20 percent. | |
